**Please summarise why your organisation or project needed books and/or computers.**

In April 2025 a different life Ghana established the library and literacy centre which is one of the departments of the youth hub program in Agona Nsaba, in the central region of Ghana. The library was to create an enabling environment for the the youth and the community at large to thrive, of which literacy was huge part of it. We needed books to stock the empty shelves, which will give us the edge to craft programs that could spark some level of curiosity in the area of reading and learning. For example we now have the annual spelling bee project, the weekend literacy boost and many more.

**Please summarise what the impact of the books and/or computers received from Books2Africa has been.**

Because we had enough books in the library we were able to craft projects that promoted literacy like, the annual spelling bee project, the weekend literacy boost, library time for the schools to visit the library every week and many more. The community has no library, our is only reference point for the youth to take advantage of.
